<sup>\*1</sup> Terracotta Server can be installed in three different ways, depending on the version and compatibility:

- SDC Download: installed by downloading standalone archives from [Empower Software Download Center](#)
- Software AG Installer: Installed via [Software AG Installer](#)
- Software AG Update Manager: upgrade from an earlier version to a newer version via applying a Fix with [Software AG Upgrade Manager](#)

<sup>\*2</sup> Presto has been renamed to MashZone NextGen

Unless other specified in the product documentation, customers are always required to stay current by installing the most frequent Fix of a product.
